

## **Stanley Schrek Appointed NJSME President**

Atlantic City, NJ – **Stanley Schrek, PE, AIA, PP, CME, LEED AP** was recently appointed as President of the New Jersey Society of Municipal Engineers at the NJSME Luncheon on November 16, 2011.

Mr. Schrek has over 34 years of experience in civil engineering, building design and construction management. As Engineer of Record for several municipalities throughout New Jersey, he has had direct responsibility for the planning, design and administration of capital improvement projects, as well as review services for local Planning and Zoning Boards.

With experience in the public sector as a Director of Public Works/Municipal Engineer, Mr. Schrek has been responsible for all aspects of municipal infrastructure including roads, parks, water and sewer service. The combination of experiences provides a full spectrum of extensive knowledge and involvement in all levels of local government.

The New Jersey Society of Municipal Engineers is a non-profit organization established in 1929 to advance and improve the practice of Municipal Engineering in New Jersey. The society strives to provide others with information and experiences relative to improved methods, theories and practices.

VCEA is a dynamic, multi-disciplined firm of engineers, planners, landscape architects, certified inspectors, and land surveyors who provide expertise in all of the major areas of civil engineering and land surveying. Since its inception in 1972, VCEA has established itself with its peers and clients as a prominent and well-respected consulting firm. The firm's success can be directly attributed to hard work and a commitment to providing clients with innovative and cost-effective solutions to their problems. Cherry, Weber and Associates (CW), a wholly owned subsidiary, represents the bridge, dam, and highway engineering element of the firm.
